CI/CD: GitHub Actions

Databases: SQLite, PostgreSQL

Languages

Ukrainian: Native

Polish: B2

English: B1

Experience

 **vitepress-plugin-lms — Creator & maintainer** 2025 - present

Built and maintain a VitePress plugin with **50,000+** weekly downloads on npm.

- Tech stack: TypeScript, Vue.
- Adopted widely across the VitePress ecosystem; highlighted by Evan You on X.
- Adopted by the most popular documentation websites such as vite.dev, vuejs.org, docs.meteor.com and 950+ other websites.

 **Material Extensions — Maintainer** 2024.05 - 2025.01 (8 months)

Worked on the most popular open source extension Material Icon Theme for vscode (**180M+ downloads**), was involved in project management, automation, security and CI efficiency improvements in the repository, added icons, reviewed pull requests, participated in solving issues regarding the further life of the project and other reforms
