Gemini 3 Flash Gemini 3.1 Pro

#### multi\_item\_checkout

T1 Show me two different products under \$60 each

T2 Add both of them to my cart

T3 Proceed to checkout

## RECOMMENDATIONS

1. All sessions reached checkout with zero errors. All stores are fully AI-agent ready.
2. Average token usage is 95,513 — above the 40K baseline. Product descriptions may be inflating context. Consider truncating descriptions in MCP responses.
3. Average session duration is 48.3s — above 15s target. Optimise MCP endpoint response times, especially initial search calls.

## SESSION REPLAYS

STORE	MODEL	OUTCOME	SESSION ID
oakywood.shop	Gemini 3.1 Pro	checkout reached	01KMJZM5MG2CA4QN5M983H19E1
