

**Incident Management Situation Report
Tuesday April 28, 2026 – 0730 MDT
National Preparedness Level 2**

National Fire Activity:

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Light (39 fires)
New large incidents:	1
Large fires contained:	3
Uncontained large fires:	20
CIMTs committed:	2
NIMOs committed:	0

Nationally, there are zero fires being managed under a strategy other than full suppression.

Fires not managed under a full suppression strategy or fires managed under a full suppression strategy but utilizing a combination of tactics – such as monitoring, confinement or point zone protection – achieve specific fire management objectives while balancing the most effective utilization of resources. Fires managed as described above are identified in the situational report as Comp fires. Additional information including definitions can be found in the [NWCG glossary](#) or [here](#).

Total	64	134,067	30	264	23	2,248	-253

Southern Area (PL 4)**Fire Activity and Teams Assigned****Totals**

New fires:	19
New large incidents:	0
Uncontained large fires:	12
CIMTs Committed:	2

HWY 82, Georgia Forestry Commission. CIMT (SA Team 1). Started on private land one mile east of Atkinson, GA. Southern rough, brush and grass. Minimal fire behavior with backing, creeping and smoldering. Numerous structures and critical infrastructure threatened. Evacuations and road closures in effect.

Pineland Rd, Georgia Forestry Commission. Started on private land 13 miles northwest of Fargo, GA. Southern rough. Active fire behavior with wind-driven runs, spotting and flanking. Numerous structures and critical infrastructure threatened. Evacuations, area and road closures in effect.

Gun Range, National Forests in Florida, USFS. CIMT (SA Team 3). CIMT is also managing the Sand Drain incident. One mile southwest of Water Town, FL. Southern rough. Minimal fire behavior with backing, creeping and smoldering.

Sand Drain, National Forests in Florida, USFS. Eighteen miles northeast of Olustee, FL. Southern rough. Minimal fire behavior with creeping and smoldering.

Railroad, Florida Forest Service. Ten miles north of Palatka, FL. Timber and brush. Moderate fire behavior with smoldering, backing and flanking. Numerous structures and railroad infrastructure threatened. Precipitation occurred over the fire area yesterday.

139, National Forests in Florida, USFS. One mile north of Wilma, FL. Southern rough. Moderate fire behavior with smoldering and creeping.

Sargent, National Forests in Florida, USFS. One mile south of Sargent, FL. Southern rough. Minimal fire behavior with creeping. Railroad infrastructure threatened.

SR 26, Florida Forest Service. Started on private land six miles east of Gainesville, FL. Timber and southern rough. Minimal fire behavior with smoldering and creeping. Structures threatened.

Mill Pond, National Forests in Florida, USFS. Three miles south of Telogia, FL. Southern rough and grass. Moderate fire behavior with smoldering and creeping.

N Main St 2, Florida Forest Service. Thirty-six miles north of Ocala, FL. Timber and southern rough. Minimal fire behavior with smoldering.

Rosindale Road, North Carolina Forest Service. Eight miles north of Lake Waccamaw, NC. Southern rough. No new information.

Cow Creek, Florida Forest Service. Started on private land 11 miles south of Bronson, FL. Timber and southern rough. No new information. Last narrative report unless new information is received.

TOTAL FIRES:		905	143	75	63	21,349	901	23,436
TOTAL ACRES:		79,743	1,965	9,576	27,499	1,617,710	102,235	1,838,727

Ten Year Average	Quantity
Fires (2016 – 2025 as of today)	15,622
Acres (2016 – 2025 as of today)	945,204

Cumulative acres shown in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

Widespread elevated to critical conditions are expected across the Greater Four Corners into the southern High Plains as west to southwest winds of 15-25 mph with gusts 25-35 mph develop amid minimum relative humidity of 5–15%. Farther north, drier conditions are expected across the rest of the West except for a few lingering showers in the northern and central Rockies with temperatures warming to near normal. East of the Rockies, scattered to widespread showers and thunderstorms will develop from northeast Texas into the Ohio and Tennessee Valleys, with severe thunderstorms most likely in northeast Texas to northwest Mississippi. Dry conditions and light winds are expected across the Appalachians to the East Coast today, but relative humidity will be higher and above 35% except in portions of South Georgia to much of Florida. Seasonable temperatures are expected across Alaska with scattered showers for the southern half of the state, while Hawai'i remains under moderate trade winds with some showers, most numerous on windward sides.
